OUR STORY

Goodseal (Pacific) Co.,Ltd is the leading brand for surface protection. Our company was established in 1998 by a group of engineers and chemists who are specialised in construction industry. We take surface protection to another level. Every Goodseal products provide the outstanding protection against water, coffee, oil, stain, dirt, and fungi for surface meanwhile allowing the surface to breathe which is unique to only Goodseal's products. One of our main philosophy is Goodseal always provide the best quality products for all from the precise and delicate manufacture process to the superb after sale service whether they are domestic or international site.

Goodseal (pacific) Co.,Ltd has been trusted in Thailand by world leading architects and end users for over decades because of ours unique combination of superior protection, and particularly the sustainability and aesthetically pleasing appearance of the surfaces.

Our products have been used in Thailand by architects, constructors and end users, particularly for stone, wood, concrete, terracotta and terrazzo protections, the advantages of every Goodseal's products is giving long lasting protection against: water, oil, dirt, stain, alkaline, weathering and discolouration, plus the impact of algae, fungus, lichen and mold.

The company has developed and invented new products with an excellent quality and safe for people and the environment by eliminating the use of the harmful materials that affect both people and the environment as a part of the sustainable future development.

OUR PHILOSOPHY

"Stone and wood are delicate living materials. They can be turned into anything and put anywhere and immediately they will step up the design value of the place. And if you treat them the right way, they will last a lifetime." said by Goodseal's founder. A nature lover and a family man who always keep up to date with the nano technology and never stop researching for a best of the surface protection are what we the company members describe the company founder.

With the passion that the founder has, it has led the company philosophy to be one of a kind devoted to the customers' satisfaction; Goodseal always provides the best quality products for all from the precise and delicate manufacture process to the superb after sale service, however they shall not be anything that surpass the safety of consumers, staffs and environment.

Regarding this philosophy, every of Goodseal's products are developed and tested by our scientists in our controlled laboratory to ensure that every product we deliver are the best and safe for our customers. More than that Goodseal always makes sure that every of our finish goods will provide our customers a groundbreaking performance that meet with their satisfaction.

Goodseal's mission is to keep on breaking barriers and providing our customers with the first-class experience from world-class products. We are striving for the best and solving persistent old problems in the surface protection industry, additionally contributing environmentally friendly products to the community.

INSPIRED BY NATURE

GOODSEAL'S SMART PROTECTION

Goodseal's surface protection is inspired by how nature maintains and protects itself in the environment. Our protection system takes after the breathability feature from nature. The process involves ventilation by natural materials; stone and wood of moisture and air from the environment, which flows through the microscopic passage inside then releases and evaporates on the surface. With this feature, we are able to achieve both the application of the protection system and the heavy-duty yet long-lasting preservation. Goodseal's protection system works by permeating inside the material and spread through the nano-sized passage then formed rigid protective cross-linked molecules with the material's molecules from the inside up to the surface level.

This process provides a deep protection, a vitality preservation and a breathability of the material which helps prevent the impact of fungi, lichen and mold. In addition, there will not be any film peeling, cracking and unpleasant finishing which degrades the delicacy of the natural beauty. However, the protective cross-linked molecules provide a seamless yet invisible protection that do not intimidate the refinement of the natural surface and texture. Goodseal's ground-breaking technology makes preserving the beauty of the surface throughout the extreme use of the surface become an ease. Our protection system has allowed the surface to withstand human activities, weathering and survive the extreme weather of Thailand and tropical climate.

OUR PRODUCTS

Goodseal surface care&protection products are highly reliable, supreme performing, thoroughly tested by a leading architects and well-known projects. Depending on the surface, natural stone, tile, grout, and masonry can vary in porosity requiring a variety of products to ensure the results you expect.

GOODSEAL'S INNOVATIVE PROTECTION

Every Goodseal products are equipped a durable lifelong protection against the penetration of toughest oil, grease, dirt, water, stains, the impact of fungi and mold and minimising lifetime maintenance cost. They also provide an opening for vapour diffusion (the surface can breathe) which is only unique to all of Goodseal's products. Apart from the protection, they do not damage the surface/materials, however preserving a natural texture and look which gives a pleasant feeling to touch, linger and walk on. Additionally, the surface is very easy to clean, making maintenance simpler and more economical.

"Architecture starts when you carefully put two bricks together. There is begins."

– **Ludwig Mies van der Rohe**

GOODSEAL STONE PROTECTION

Goodseal Stone Protection lineup is a highly effective proven system to protect and preserve natural stone of all types. Advanced nano technology, designed to provide maximum long-life protection on natural stone against the penetration of toughest oil, grease, dirt, water, stains, the impact of fungi and mold and minimizing lifetime maintenance cost. Helps keep surfaces looking clean and makes taking care of all absorbent stain sensitive surfaces become an ease.

There are wide-range stone protection products to select from preserving the natural look of the stone to enhancing the deep rich color of the stone.

The system is specifically prepared to provide the protection that penetrates effortlessly into the molecules of the stones. The protection molecules rush into the porous stone network and penetrate the microstructure network of the stone

Goodseal Stone Protection System implants a cross-linked structure inside the stone molecules, provides a tough lifelong protection. It is an authentic Goodseal's technology that does not damage the look and texture of the stone. However, a structure of protection molecules is created inside the stone molecules, reinforcing it and making it more durable.

Thanks to Goodseal's innovative technology, we are able to achieve an excellent water and dirt repellent together with the ability to preserve the beautiful natural look of the stone for long life. Goodseal Stone Protection System also provides an opening for vapor diffusion (the stone can breathe) which makes the stone non absorbable for heat giving pleasant feeling to touch, linger and walk on. Apart from the pleasing surface, it also is handful soldiers to fight against the impact algae, mold and bacteria from penetrating the stone. The surface is very easy to clean, making maintenance simpler and more economical.

GOODSEAL STONE PROTECTION & CARING LINE UP

STONEGUARD OIL BLOCK GOLD

PREMIUM STONE IMPREGNATOR
THE NEW PERSPECTIVE OF PROTECTION

Heavy Duty Surface protection
Oil & Oil Stains Repellent
Water & Dirt Repellent
Stain Protection
UV & Weather Resistant
Anti Fungi & Lichen
Easy to Clean
Breathable Skin
Invisible Protection & Natural Look
Nano Technology
Easy Application
3 Years Long Lasting

2

OIL BLOCK GOLD #2 Stone Protector

Heavy Duty Protection
against toughest oil,
grease, dirt, water, stains,
the impact of fungi and
mold. Ideal for Both interior
and exterior, wall and floor,
Food area, Kitchen, Pool,
Spa, Bathroom, Garage,
Drop-off and Driveway

GOODSEAL PREMIUM NANO

TOXIC-FREE PREMIUM STONE PROTECTION

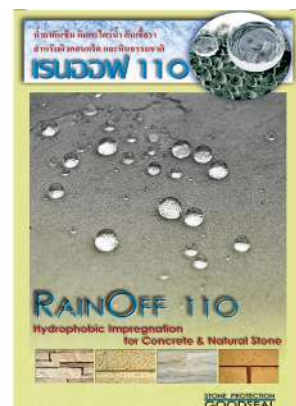

Heavy Duty Surface Protection
Water & Dirt Repellent
Stain Protection
UV & Weather Resistant
Anti Fungi & Lichen
Easy to Clean
Breathable Skin
Invisible Protection & Natural Look
Nano Technology
Non-VOC & Non-Toxic
Breathable & Odourless
Human & Environmental Friendly
Easy Application
3 Years Long Lasting

8

PREMIUM NANO #8 Stone Protector

Premium Non-Toxic
&Non-VOC Protection
against stains, water, dirt,
the impact of fungi and
mold. Ideal for Both interior
and exterior, wall and floor,
Bedroom, Living Room,
Bathroom, shower, and
Facade

RAINOFF 110

Hydrophobic Impregnation
for Concrete & Natural Stone

GOODSEAL

RAINOFF 110 Stone Protector

Professional Grade
Protection against stains,
water, dirt, the impact of
fungi and mold. Ideal for
Both interior and exterior,
wall and floor, Bedroom,
Living Room, Bathroom,
and Facade

GOODSEAL STONEGUARD

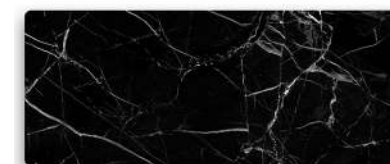

STONE IMPREGNATOR

Water Repellent
Technology From USA
Water Based
Reduce Water absorption
Prevent fungi and lichen
Resistance to weathering
and to dirt
Natural look

สโตนการ์ด สูดรน้ำ
น้ำยากันซึมหินอ่อน หินแกรนิต หินธรรมชาติ

STONEGUARD #1 Stone Protector

Smart Protection against
water, dirt, water, stains, the
impact of fungi and mold.
Ideal for Both interior and
exterior, wall and floor.
Come with a decent value.

GOODSEAL ABSOLUTE DARK

STONE IMPREGNATOR
ENHANCING COLOR & STAIN PROTECTION

Heavy duty surface protection
Enhancing the color
Bring out the deep natural rich color
Water & Dirt Repellent
Stain Protection
UV & Weather Resistant
Anti Fungi & Lichen
Easy to Clean
Breathable skin
Invisible Protection
Natural Look & Texture
Minimizes efflorescence
Nano technology
Easy Application
Durable & Long Lasting

4.1

ABSOLUTE DARK #4.1 Stone Enhancer&Protector

Durable Enhancer &
Protection against toughest
oil, grease, dirt, water,
stains, the impact of fungi
and mold. Bring out the
deep natural rich stone color
with a matte finish. Ideal for
Both interior and exterior,
wall and floor.

DURAKOAT #4 Stone Enhancer&Protector

Excellent Glossy Enhancer
& Protection against
toughest , water, dirt, stains,
the impact of fungi and
mold. Enhancing color with
a glossy finish. Ideal for
interior, wall and floor.

Hydrophobic Additive Powder for Cementitious Building

Anti-ASR Powder Plus is a special additive in cement based mixtures for mass hydrophobization and effectively reduces the water absorption of the hardened concrete. Design to prevent transport of water-soluble salt such as efflorescence of granite tile works. Plus, reduce water absorption of cementitious.

ANTI-ASR POWDER PLUS Stone Installation Additive

Efflorescence Reducer for marble and natural stone installation. Special additive powder helps reduce water absorption, prevent water and water soluble salt transport through cured cement material.

STAIN REMOVER Stone Cleaner

Powerful and Fast acting Stone Cleaner, Safely removes colored organic stains; wine, tea, coffee, soft drink, wood, leaves and etc. Non-corrosive, Non-Acidic formulation and Biodegradable, suited for delicate stones.

RUST-OUT STONE CLEANER

น้ำยาขูดคราบสนิมเหล็กจากสำหรับงานหิน

RUST-OUT Stone Cleaner

Powerful and Fast acting Stone Cleaner, safely removes tough rust stains. Non-corrosive formulation and Biodegradable, suited for delicate stones. Odorless and Easy to use.

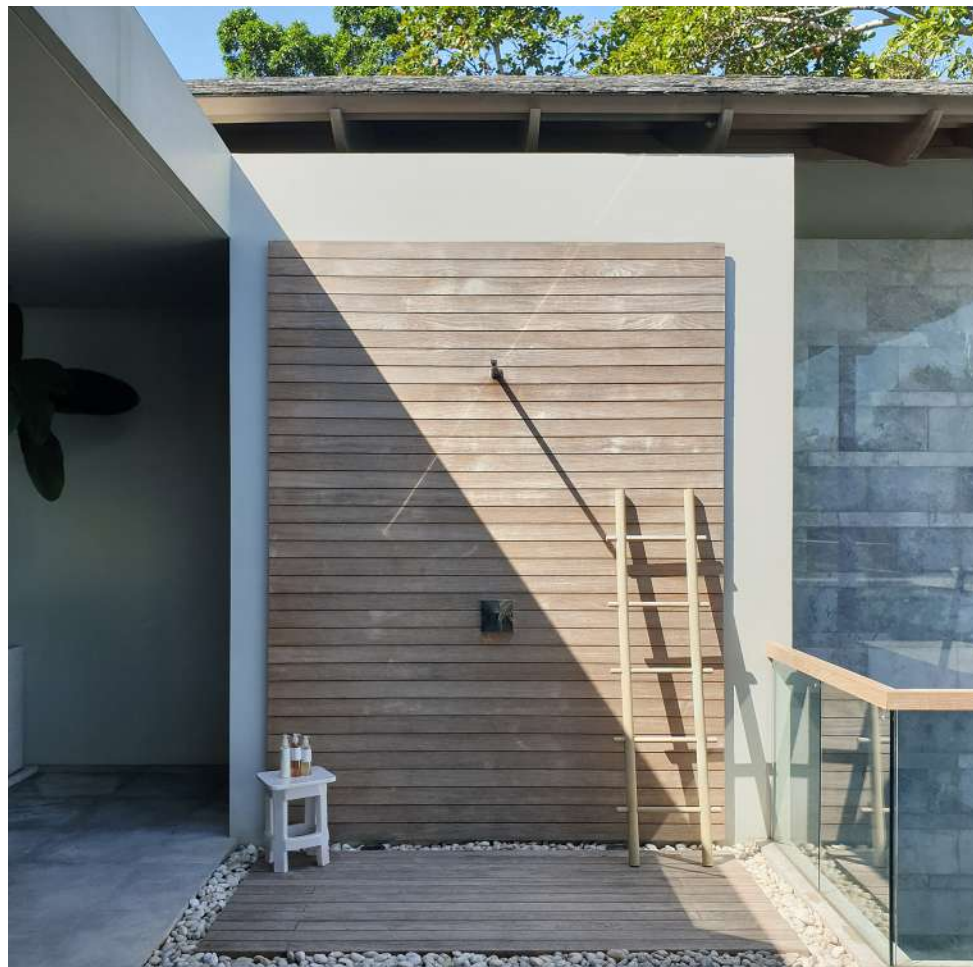

GOODSEAL WOOD PROTECTION

Goodseal Wood Protection System contains essential natural particles of wood and plants. By means it is specifically prepared to provide the protection that penetrates effortlessly into wood. The protection molecules open the wood structure and penetrate the microstructure network of the wood fibers. It does its job impressively that it is practically suitable for all types of natural wood. It is a highly effective proven system to protect and preserve the beauty of natural wood of all types. Advanced nano technology, designed to provide maximum long-life

protection on natural wood against the penetration of toughest dirt, water, stains, the impact of fungi and mold and minimizing lifetime maintenance cost.

When Goodseal Wood Protection System forms a cross-linked structure inside the wood fibres, it is reinforced and cemented. It is an authentic Goodseal's technology that does not damage the wood fibres. However, a structure of protection molecules is created in the wood, reinforcing it and making it more durable.

Goodseal Wood Protection System gives extensive advantages in: providing long life protection, minimizing lifetime maintenance cost, providing all round maximum protection on natural wood even UV protection with even coloration, strengthening up the wood surface and developing a beautiful natural silver grey nuance as the timber matures.

GOODSEAL INNOVATIVE PROTECTION

Thanks to Goodseal's innovative technology, we are able to achieve an excellent water and dirt repellent together with the ability to preserve the beautiful natural look of the wood for long life. Goodseal Timbercare Premium Nano #3 also provides an opening for vapor diffusion (the wood can breathe) which makes the wood non absorbable for heat giving pleasant feeling to touch, linger and walk on. Apart from the pleasing surface, it also is handful soldiers to fight against the impact algae, mold and rot from penetrating the wood. The surface is very easy to clean, making maintenance simpler and more economical.

3.2

TIMBERCOLOR PRO+ #3.2 Wood Enhancer & Protector

Professional Grade Enhancer & Protection against toughest oil, grease, dirt, water, stains, the impact of rotting fungi and mold. Bring out the deep natural rich wood color with a matte finish. Ideal for Both interior and exterior, wall and floor.

EASY WOOD CLEANER

น้ำยาถูทำความสะอาดสำหรับงานไม้

EASY WOOD CLEANER Wood Cleaner

Powerful and Fast acting Wood Cleaner, safely removes tough stains. Non-corrosive formulation and Biodegradable, suited for delicate wood. Odorless and Easy to use.

Super Wood Adhesive Wood Installer

Durable Wood Adhesive, flexible and elastic properties provide a strong and long life adhesive. Excellent sound damping and moisture resistant. Ideal for Both interior and exterior, wall and floor.

GOODSEAL CONCRETE BRICK TERRACOTTA TERRAZZO SANDWASH PROTECTION

Goodseal Composite Material Protection lineup is a highly effective proven system to protect and preserve composite surface of all types. Advanced nano technology, designed to provide maximum long-life protection on natural stone against the penetration of toughest oil, grease, dirt, water, stains, the impact of fungi and mold and minimizing lifetime maintenance cost. Helps keep surfaces looking clean and makes taking care of all absorbent stain sensitive surfaces become an ease. There are wide-range composite surface protection products to select from preserving the natural look of the stone to enhancing the deep rich color of the surface.

The system is specifically prepared to provide the protection that penetrates effortlessly into the molecules of the composite material. The protection molecules rush into the porous network and penetrate the microstructure of the molecules. It is a highly effective proven system to protect and preserve the beauty of natural surfaces of all types. Additionally, the special components that Goodseal added help strengthen and cementing the composite material together such as concrete and terrazzo.

Goodseal Composite Material Protection System implants a cross-linked structure inside the composite material molecules, provides a tough lifelong protection. It is an authentic Goodseal's technology that does not damage the look and texture of the composite surface. However, a structure of protection molecules is created inside the composite material molecules, reinforcing it and making it more durable.

Thanks to Goodseal's innovative technology, we are able to achieve an excellent water and dirt repellent together with the ability to preserve the beautiful natural look of the composite surface for long life. Goodseal Composite Material Protection System also provides an opening for vapor diffusion (the surface can breathe) which makes the surface non absorbable for heat giving pleasant feeling to touch, linger and walk on. Apart from the pleasing surface, it also is handful soldiers to fight against the impact algae, mold and bacteria from penetrating the surface. The surface is very easy to clean, making maintenance simpler and more economical.

Design to prevent transport of water-soluble salt such as efflorescence of granite tile works. Plus, reduce water absorption of cementitious.

ANTI-ASR POWDER PLUS Installation Additive

Efflorescence Reducer for concrete brick terrazzo installation. Special additive powder helps reduce water absorption, prevent water and water soluble salt transport through cured cement material.

STAIN REMOVER Cleaner

Powerful and Fast acting Cleaner, Safely removes colored organic stains; wine, tea, coffee, soft drink, wood, leaves and etc. Non-corrosive, Non-Acidic formulation and Biodegradable, suited for delicate surface.

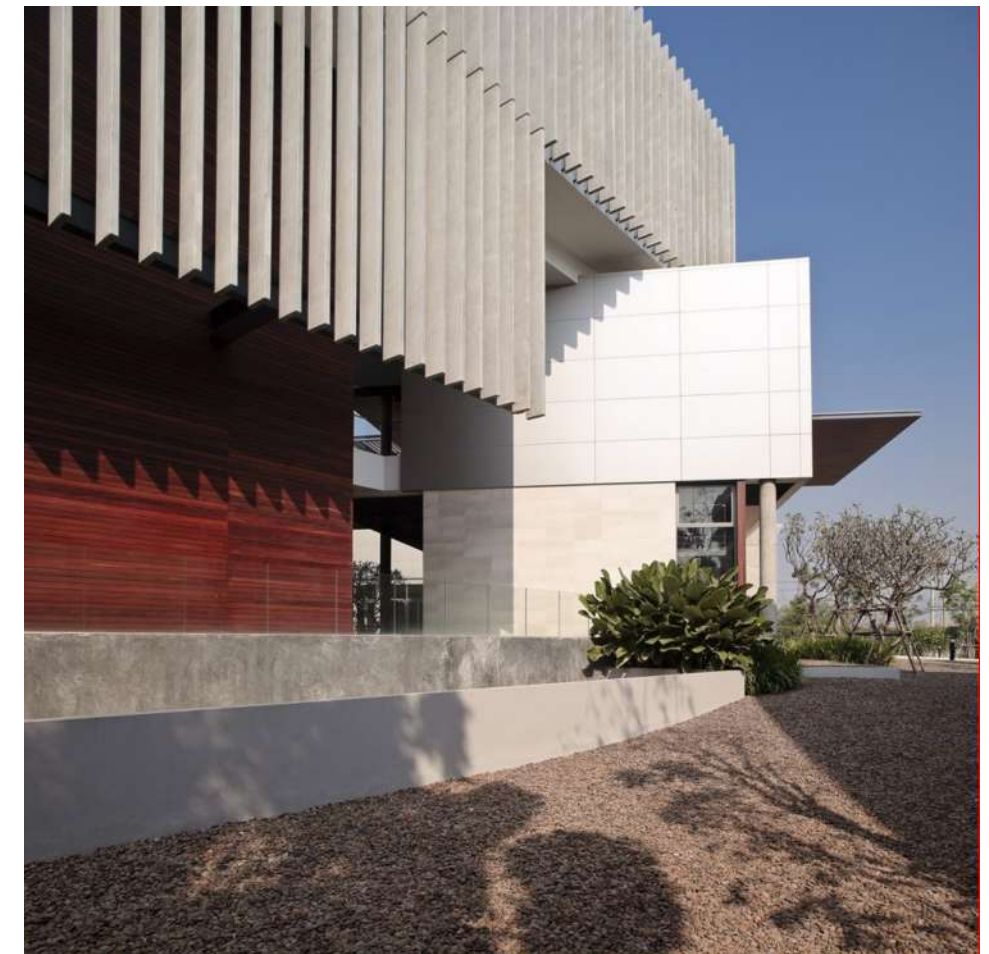

RUST-OUT STONE CLEANER

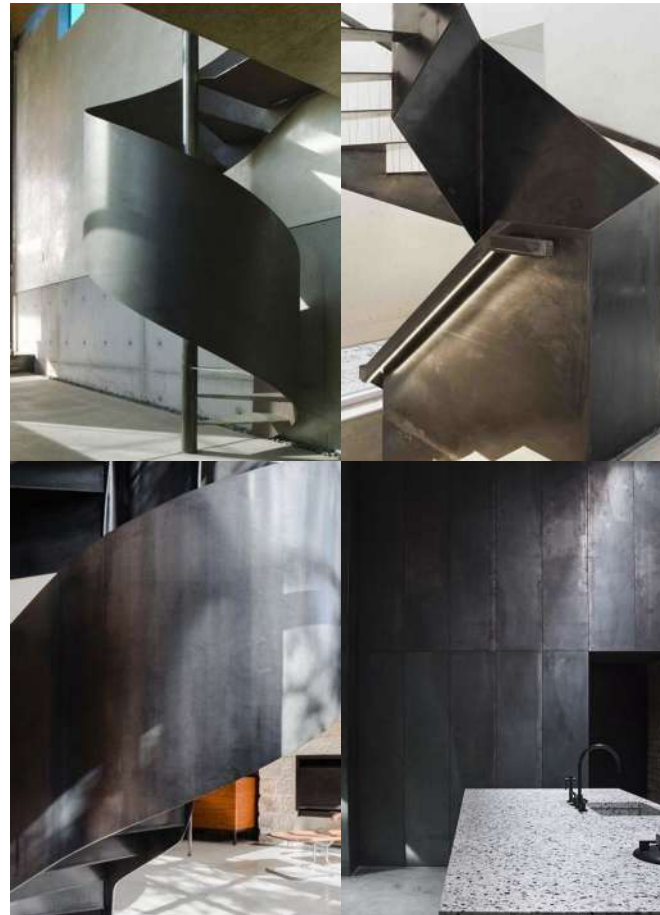

น้ำยาถูคราบสนิมเหล็กจากสำหรับงานหิน

RUST-OUT Cleaner

Powerful and Fast acting Rust Cleaner, safely removes tough rust stains. Non-corrosive formulation and Biodegradable, suited for delicate surface. Odorless and Easy to use.

GOODSEAL STEEL PROTECTION

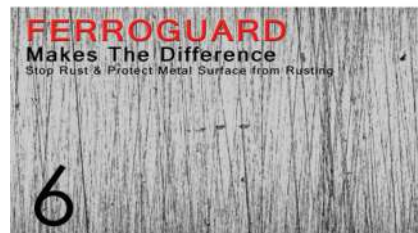

Goodseal Steel Protection is a highly effective proven system to protect and preserve the beauty of natural steel of all types. Advanced nano technology, designed to provide maximum long-life protection on natural steel against the corrosion and the stain of toughest dirt, water, the impact of oxidation and minimizing lifetime maintenance cost.

When Goodseal Steel Protection forms a cross-linked structure inside the steel molecules, it is reinforced. It is an authentic Goodseal's technology that each of the molecules is flexible enough to expand and shrink together with the steel molecules. With this feature, it makes the protection last longer and more durable to the harsh condition.

Goodseal Steel Protection gives extensive advantages in: providing long life protection, minimizing lifetime maintenance cost, providing all round maximum protection on natural steel even oxidation, corrosive protection and stain resistance.

Thanks to Goodseal's innovative technology, we are able to achieve an excellent water and dirt repellent and corrosion protection together with the ability to preserve the beautiful natural look of the steel for long life. Goodseal steel also provides a flexible protection structure which makes the steel non absorbable for heat giving pleasant feeling to touch, linger and walk on. Apart from the pleasing surface, it also is handfull soldiers to fight against the impact of oxidation and corrosion. The surface is very easy to clean, making maintenance simpler and more economical.

GOODSEAL STEEL PROTECTION & CARING LINE UP

Ferroguard #6 Steel Protector

Superb Protection against toughest water, stains, the impact of rust, oxidation and corrosion. Ideal for Both interior and exterior, wall and floor.

RUST-OUT

RUST-OUT Cleaner

Powerful and Fast acting Rust Cleaner, safely removes tough rust stains. Non-corrosive formulation and Biodegradable, suited for delicate steel. Odorless and Easy to use.

GOODSEAL CLEANERS

Goodseal Cleaners are highly effective proven products by numerous luxury hotels, projects and end-users to cleanse and clean natural stone of all types, wood and natural material surface. Goodseal cleaners are designed to be the one and only solution to tough and heavy duty stains. They are specifically developed with advanced technology to safely remove tough stains and fast acting result meanwhile preserving the surface finish thanks to the non-corrosive property, plus, they will biodegrade themselves.

STAIN REMOVER Stone Cleaner

Powerful and Fast acting Stone Cleaner, Safely removes colored organic stains; wine, tea, coffee, soft drink, wood, leaves and etc. Non-corrosive, Non-Acidic formulation and Biodegradable, suited for delicate stones.

RUST-OUT STONE CLEANER

EASY WOOD CLEANER Wood Cleaner

Powerful and Fast acting Wood Cleaner, safely removes tough stains. Non-corrosive formulation and Biodegradable, suited for delicate wood. Odorless and Easy to use.

"You employ stone, wood and concrete, and with these materials you build houses and palaces. That is construction. Ingenuity is at work. But suddenly you touch my heart, you do me good, I am happy and I say: This is beautiful. That is Architecture. Art enters in."

- Le Corbusier

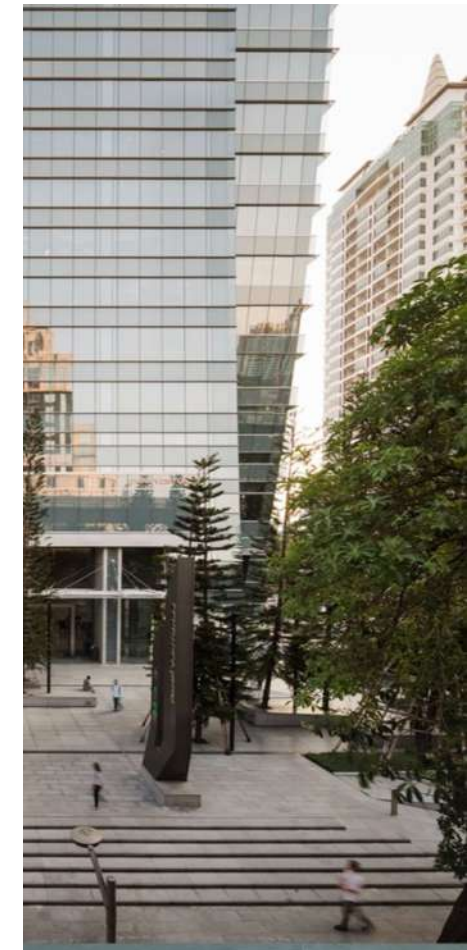

PROJECT REFERENCES

Goodseal's technology has proven to be the future of innovation in many fields. Since the day one we have grown rapidly, Goodseal never stop researching and developing our products and services to be better than yesterday. We are doing what our customers could only dream of doing yesterday and we are evolving to continue to provide lasting benefit to our customers, the industry and community through eco-friendly technology.

Goodseal (Pacific) Co., Ltd has been trusted by various well-known project and architects in Thailand, both on the Government and privates.

For instance, The Bangkok Mass Transit System (BTS), The Metropolitan Rapid Transit (MRT), The Government Complex Commemorating His Majesty Chaeng Wattana, Bangkok New Parliament Complex, Thammasat University, Bangkok University, Mahidol University, Siam Paragon, Central Embassy, Iconsiam, Laguna Phuket, Bayan Tree Phuket, Marriott, St. regis, Sukhothai Resident, Mandarin Oriental, King Power Complex, 98 Wireless, Santiburi and so on.
